

Quick Fact Sheet

shop**GURU**

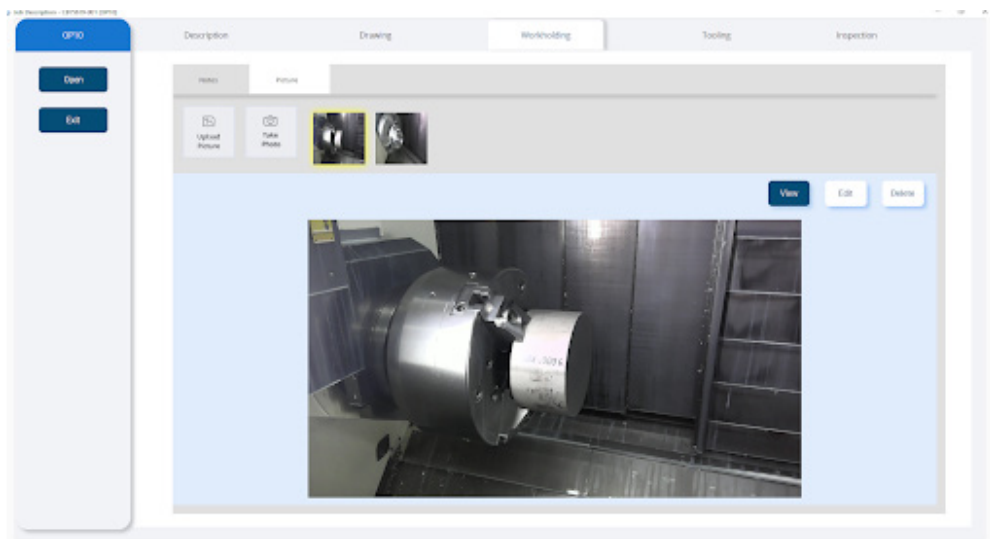

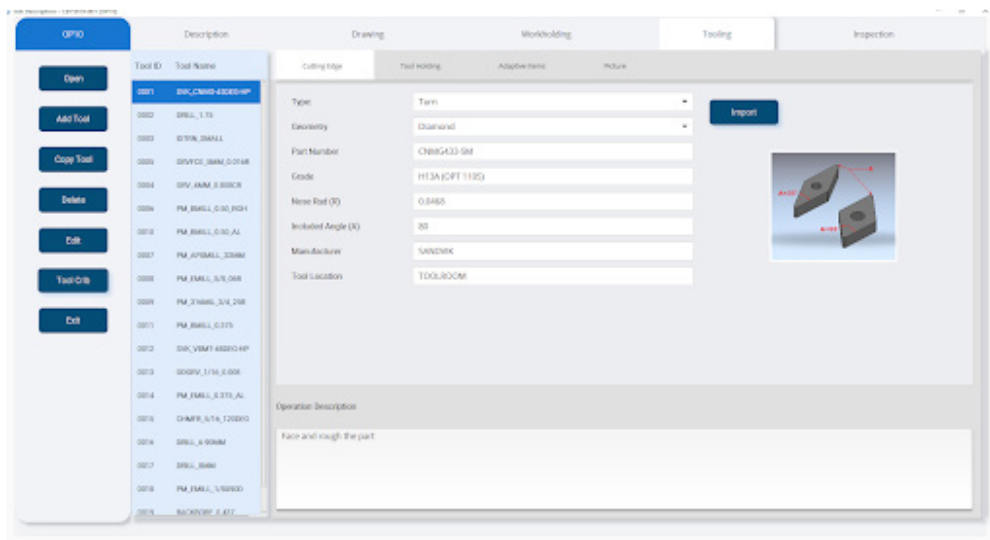

DISCOVER WHY SHOPGURU IS EVERY CNC MACHINIST'S BEST FRIEND!

shopGURU is the only software designed to empower CNC Machinists of any experience level to independently produce even the most complex parts - on time, every time.

Here are the key features inside shopGURU that turn your CNC Machinists into CNC Gurus!

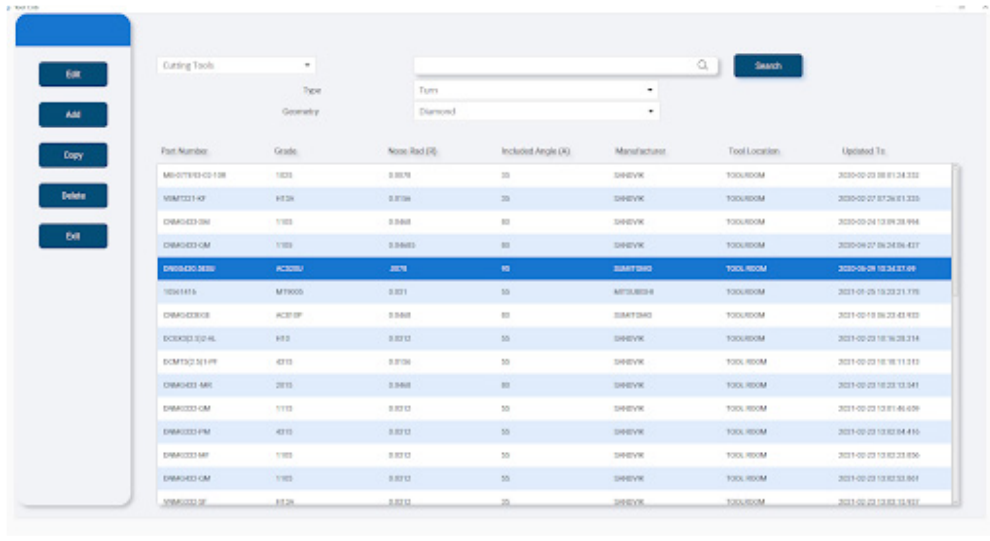

BULLETPROOF JOB SETUP & WORKHOLDING

No more coming up with new machining steps or trying to remember how the part was done last time! Machinists easily record every detail of the job setup and follow previously recorded steps to produce perfect parts from start to finish.

THE PERFECT TOOLS IN YOUR VIRTUAL TOOL CRIB

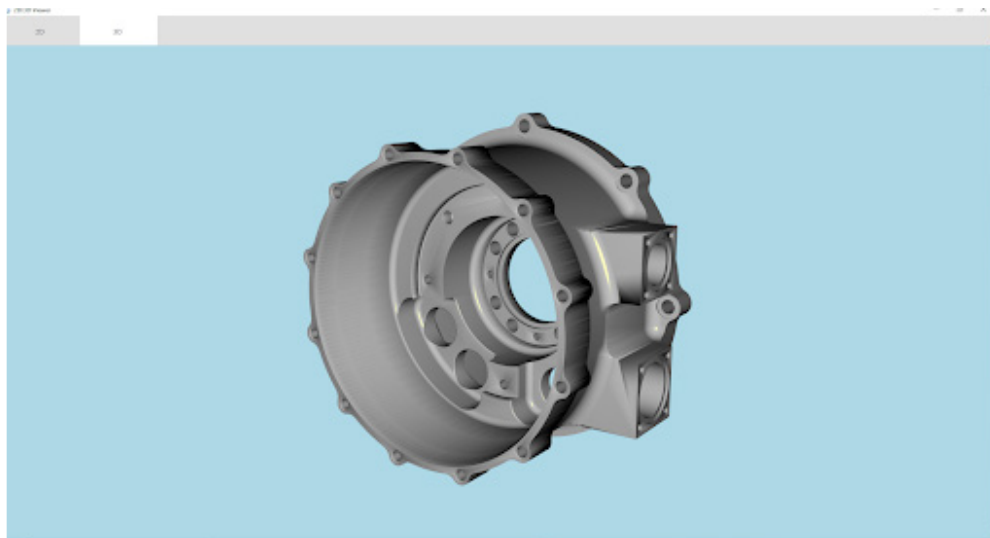

Enter specific tooling details for every step of the machining process and quickly add the right tools from your virtual tool crib inside shopGURU. Eliminate costly mistakes, machine crashes, and tool damages when your team selects the wrong tools.

VIEW 2D/3D MODELS

Upload 2D Blueprints and 3D Models to give your machinists ultimate part visibility and confidence in their ability to get the job done right.

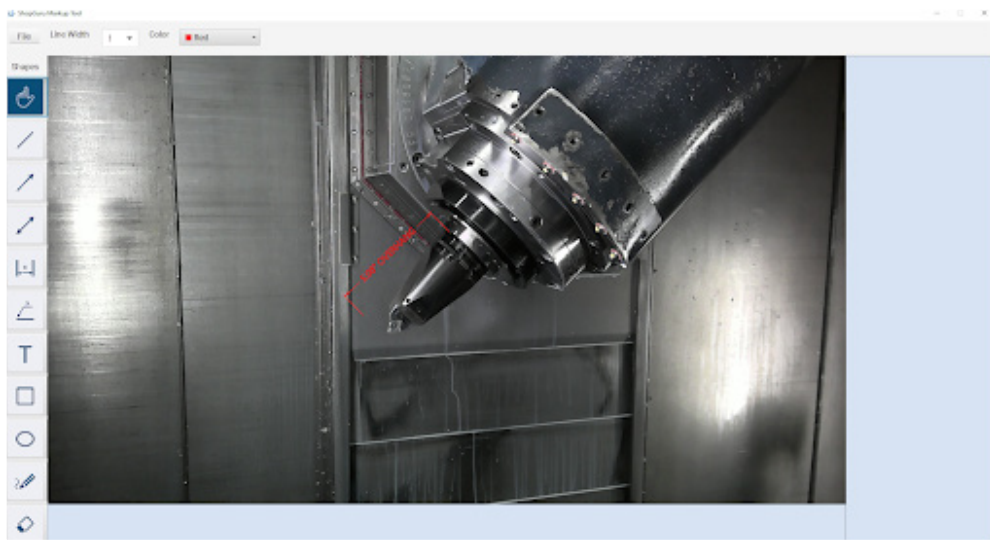

TAKE PICTURES

Take pictures of your entire setup, workholding, and tooling with your mobile tablet right at the machine. Recall pictures later for accurate production every time.

CREATE MARKUPS & KEEP NOTES

Easily markup uploaded pictures with key dimensions, notes, and more to ensure no detail is missed. Keep important job-specific notes such as tool life, troubleshooting notes, and more.

PRECISE INSPECTION

Record your complete inspection process step by step and follow previously recorded inspection steps for the highest quality parts and peace of mind.
